

Idea #1

Loadings

Wireframe

Going to be a
very simple two
paged website.
The home being
the main page.

HOME

ABOUT

WORK

Page Before Home

This will be
loading 7-10 sec-
onds before actu-
ally being able
to see the HOME
page.

loading . . .

HOME-1

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story . . .

HOME-2

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my
project, Love Letter . . .

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my
project, Love Letter. This is how
the text will . . .

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my
project, Love Letter. This is how
the text will load really really
really really really really
really really really . . .

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my project,
Love Letter. This is how the text
will load really really really
really really really really really
really really really really really
really really really really really
really. . .

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my
project, Love Letter. This is how
the text will load really really
really really really really
really really really really
really really really really
really really really really
really really really really
really really really really
really really. . .

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my
project, Love Letter. This is how
the text will load really really
really really really really
really really really really
really really really really
really really really really
really really really really
really really really really
really really really really
really really slowly . . .

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my
project, Love Letter. This is how
the text will load really really
really really really really
really really really really
really really really really
really really really really
really really really really
really really really really
really really really really
really really slowly. And as the
text loads . . .

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my project,
Love Letter. This is how the text
will load really really really
really really really really really
really really really really really
really really really really really
really really really really really
really really really really really
really really really really really
really really really slowly. And
as the text loads, really really
really really really really really
really slowly . . .

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my project,
Love Letter. This is how the text
will load really really really
really really really really really
really really really really really
really really really really really
really really really really really
really really really really really
really really really really really
really really really slowly. And
as the text loads, really really
really really really really really
really slowly, there will be a
percentage on the side, to
indicate . . .

The story will
slowly . . . very
slowly load.

The percentage
will also be on
the bottom of the
page to tell the
reader how much
more the reader
has left.

This is a story. About my project,
Love Letter. This is how the text
will load really really really
really really really really really
really really really really really
really really really really really
really really really really really
really really really really really
really really really really really
really really really slowly. And
as the text loads, really really
really really really really really
really slowly, there will be a
percentage on the side, to
indicate how much more text/story
there is left to load on the

there is left to load on the

About

ABOUT with HOME

This page would tell the reader what the page is about and why some decisions were chosen.

HOME button

This idea is based on all the annoying things that happened when we first used the internet. The internet was a lot slower, we didn't have immediate access to it whenever we needed it, and we were a lot more patient. This website will have many slow loading signs, unwanted pop ups, and messages that scare the crap out of you . . .
